MB Docket No. _____

RM No. _____

To: John Karousos, Assistant Chief
Audio Division of the
Media Bureau

Petition for Rulemaking

Pursuant to 47 C.F.R. 1.401, James McWain petitions the Federal Communications Commission to institute a rulemaking proceeding for the purpose of allotting FM channel 246C3 to Gage, Oklahoma as Gage's first local service. It is proposed to amend Section 73.202(b) of the Commission's Rules, Fm Table of Allotments as follows:

City	Channel Number Present	Channel Number Proposed
Gage, Oklahoma	-----	246C3

No change in existing allotments is requested.

Gage is an incorporated town in Ellis County, Oklahoma, with a 2000 census population of 429 persons.

As demonstrated in the attached engineering exhibit, the allotment of Channel 246C3 to Gage, Oklahoma can be accomplished in compliance with all minimum mileage separation requirements from the reference site (36-30-41N 99-45-07W).

From the reference site, the required 70 dBu signal contour will completely encompass the city limits of Gage, Oklahoma.

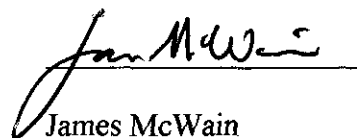

Allotment of Channel 246C3 will provide Gage with its first local aural service and an essential outlet for local expression. Accordingly, the allotment will serve the public interest.

If the requested allotment is made, Petitioner will apply for a construction permit for a new FM station on Channel 246C3 at Gage, Oklahoma. If granted a construction permit, Petitioner will promptly construct and operate the new facility.

The factual information provided in these Comments is correct and true to the best of my knowledge.

Wherefore, for the foregoing reasons, the Commission should initiate a rulemaking proceeding to amend 73.202(b) of its rules to allot Channel 246C3 to Gage, Oklahoma.

Respectfully submitted,

James McWain
